Right to work in the UK - no sponsorship required.

SUMMARY

Final-year BSc Computing student at Glasgow Caledonian University with hands-on experience developing full-stack applications using React/Next.js and Spring Boot, including real-time and AI-integrated systems. Strong focus on backend and cloud technologies, with an interest in building scalable, production-ready systems. Seeking a graduate software engineering role in backend or cloud engineering.

WORK EXPERIENCE

Volunteer - The Devil's Porridge Museum

Dumfries, UK | Dec 2024 – June 2025

- Grew event enquiries 100%+ (50+ additional participants) by improving online visibility and implementing targeted digital outreach
- Maintained and enhanced the website, restructuring pages and adding content to improve usability and visitor engagement
- Supported event operations by coordinating schedules, assisting promotions, and managing digital communication across online channels

PROJECTS

Programming Helper AI - [\[GitHub\]](#) | [\[Demo\]](#)

Next.js · React · TypeScript · Tailwind · OpenAI API

- Built an AI-powered learning platform providing real-time code explanations and contextual suggestions
- Designed interactive problem-solving workflows to improve user engagement and learning efficiency
- Integrated OpenAI API for dynamic response generation and structured prompt handling

Real-time Chat Application - [\[GitHub\]](#)

Spring Boot · WebSocket (STOMP) · React · PostgreSQL

- Engineered a real-time messaging system with low-latency communication and concurrent user support
- Implemented persistent message storage and reconnection handling for stable user sessions
- Designed scalable backend architecture using WebSocket protocol for live data exchange

Personal PC Assistant - [\[GitHub\]](#)

Python · Faster Whisper · Ollama · PyQt6 · PyCaw

- Developed a voice-controlled desktop assistant with speech recognition and local AI processing
- Implemented system-level controls (volume, brightness, Wi-Fi, screenshots) via custom command mapping
- Integrated offline AI models (Ollama, Whisper) to enable low-latency, privacy-focused interactions

EDUCATION

Bsc (Hons) Computing - Glasgow Caledonian University

Glasgow, UK | Sep 2023 - Present (Expected April 2026)

On track for First-Class Honours (1st)

Relevant modules: Software Engineering & OOP, Data Structures & Algorithms, Web Application Development (I & II), Computer Networks & Cloud Computing, DevOps, Secure Software Development, Honours Project ([Programming Helper AI](#))

HNC Cyber Security (SCQF Level7) - Dumfries and Galloway College

Dumfries, UK | Aug 2022 - Jun 2023

Focused on cybersecurity fundamentals, system vulnerabilities, secure networking, and data analysis.

Junior Bachelor's Degree in Software Engineering - National Aerospace University "KhAI"
Kharkiv, Ukraine | Sep 2021 - Jun 2023

Covered data structures & algorithms, .NET development, SQL databases, software testing, and security fundamentals.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, SQL
Frontend: React, Next.js, HTML, CSS, Tailwind
Backend: Spring Boot, Node.js, REST APIs, WebSocket/STOMP
Databases: PostgreSQL, MySQL, MongoDB
DevOps & Cloud: Docker, CI/CD, Jenkins, AWS
Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code, PyCharm
AI/LLM APIs: Claude API (Anthropic), OpenAI API, Ollama, Faster Whisper
AI Dev Tools: Claude Code, GitHub Copilot, Cursor

CERTIFICATES

- Building with the Claude API - Anthropic, 2026
- Cisco Networking Essentials - Cisco, 2023
- The Complete JavaScript Course 2025 - Udemy, 2026

LANGUAGES

English - Professional working proficiency
Ukrainian - Native

HOBBIES AND INTERESTS

Interests: Backend engineering, cloud infrastructure, system security, UAV technologies

Available for immediate start | Open to relocation across the UK
